Apply Today! If you are a motivated technician ready to take your career to the next level, we want to hear from you! Join OMNI Technology Services and be part of a team that is dedicated to innovation, quality, and service excellence.

OMNI Technology Services is a regional leader in Electronic Security and Building Technology Integration, providing advanced security and technology solutions throughout New England. Our expertise includes intrusion detection, burglar alarms, fire alarms, video surveillance, access control, audio/video, and structured cabling.

Position Overview

We are seeking a Licensed Security Service Technician with experience in intrusion alarms, fire alarms and video surveillance. The ideal candidate will have strong troubleshooting skills and the ability to install, service, and maintain security systems for commercial and industrial clients. The candidate should possess at least one of the three following licenses: RI TST - RI Telecommunications System Technicians, RI BF - Burglar and Fire Alarm license or Mass D - Systems Technician License

Location: 115 Newport Ave. Pawtucket RI 02861

Responsibilities

- Install, maintain, and troubleshoot intrusion alarm and video surveillance systems.
- Diagnose and repair security system components.
- Perform system testing, programming, and configuration to ensure proper operation.
- Work with clients to provide technical support and training on installed systems.
- Maintain up-to-date knowledge of industry trends, products, and best practices.
- Ensure all work is completed in compliance with safety regulations and company standards.

Requirements

- RI TST - RI Telecommunications System Technicians and/or
- RI BF - Burglar and Fire Alarm license and/or
- Mass D - Systems Technician License
- Strong working knowledge of intrusion alarm systems, fire and video surveillance equipment.
- Troubleshooting skills and the ability to diagnose and resolve technical issues efficiently.
- Ability to work on ladders and lift up to 50 lbs.
- Valid driver's license and reliable transportation.
- High school diploma or equivalent

Skills and Competencies

- Ability to independently diagnose and resolve system malfunctions.
- Strong organizational skills and attention to detail.
- Excellent time management and ability to meet deadlines.
- Effective communication skills, both verbal and written.
- Ability to work safely and follow all safety protocols.

Benefits

- Health and dental insurance
- 401(k) with company match
- Paid time off (two weeks of vacation to start)
- Tuition reimbursement
- Company-provided vehicle
- Opportunities for career advancement
- Signing bonus potential
